

Ice Storage

A. Small storage bins

Ideal solution for small ice storage needs. Such storage bins are convenient for storage for all types of ice. All types of bins are double wall with insulation (polyurethane) inside which guarantees a longer storage time.

								
Type	B-200	B-320	B-520	B-850	Bin 240 PE	Bin 400	DRB-500	
Storage capacity (kg)	100	160	236	460	240	400	108 X 2	
Dimensions (mm)	Length	700	560	760	1.220	942	1.250	1.560
	Width	750	800	800	800	795	900	1.330
	Height	800	1.050	1.030	1.030	1.053	1.100	1.780

B. Orbital silos

High quality ice storage with FIFO (first in first out) advantage. All parts in contact with ice are made of food compatible material. Automatic ice extraction with many possibilities.

Type	Storage Capacity (kg)	Dimensions			Ice Extraction (kg/min)
		Length (m)	Width (m)	height (m)	
S2	2.000	2,68	2,20	3,14	80
S3	3.000	2,68	2,20	3,76	80
S4	4.000	2,68	2,20	4,38	80
S5	5.000	2,68	2,20	5,00	80
S8	8.000	4,25	3,30	4,15	130
S12	12.000	4,25	3,30	5,15	130

C. Containerized Ice Storage

Custom made ice storage solutions based in insulated containers with the following characteristics :

- High storage capacity
- High quality insulation minimizing thermal losses.
- Automatic ice extraction.
- Additional container cooling.
- Combination with the ice making system
