

Cube Ice Machines

CBFI

Characteristics :

- Machines are of the water cooled type, made in compact construction, space saving, ready for operation after the connection to the cooling tower.
- PLC provides accurate and reliable operation of the machine, giving many useful possibilities in operation.
- Evaporator and all parts which are in contact with the water are made by material which are compatible for consumption by human.
- Design and construction of machine is focused to low energy consumption which is around **85 kWh/t.**
- Machines are signed by the CE sign.

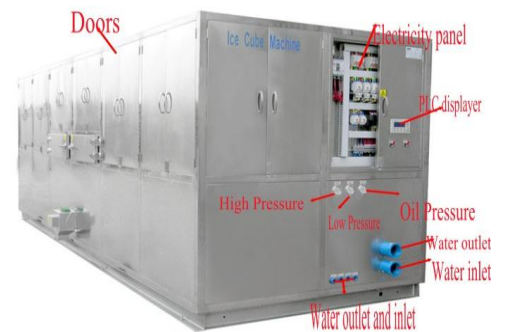

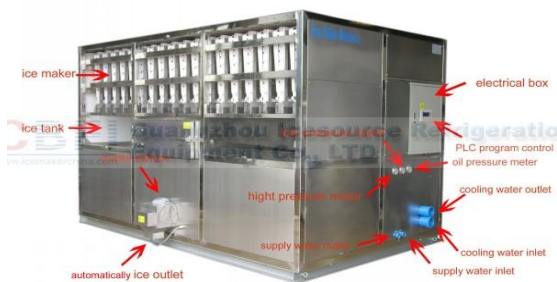

Ice Cube Dimensions :

22mm * 22mm * 22mm

29mm * 29mm * 22mm

Model	Ice production	Installed Power	Water circulating pump power	Cooling Tower Pump Power	Cooling Tower Fan Power	Dimensions (mmXmmXmm)	Weight (kg)
	(t/24h)	(Kw)	(Kw)	(Kw)	(Kw)		
CV 1000	1	3,69	0,37	1,5	0,37	1200 * 1000 * 1600	800
CV 2000	2	7,11	0,37	1,5	0,55	1630 * 1600 * 1686	1.000
CV 3000	3	9,68	0,37	2,2	0,75	1980 * 1630 * 1840	1.200
CV 5000	5	17,47	0,55	2,2	1,5	2890 * 1780 * 1840	1.600
CV 8000	8	28,52	1,1	4	1,5	4820 * 1780 * 2000	2.500
CV 10000	10	37,68	1,1	4	1,5	5730 * 1780 * 2000	3.000
CV 15000	15	52,41	1,65	5,5	2,2	8620 * 1780 * 2000	4.500
CV 20000	20	75,36	2,2	8	3	11460 * 1780 * 2100	6.000
